

MOVE INTO THE FAST LANE WITH **RIVERBED**® AND MICROSOFT® OFFICE 365

riverbed®

Slow Going

Network latency can **slow** SaaS application delivery **up to 60%.***

No matter how good the apps, commuting to and from the cloud can be slow-going.

*Riverbed, 2013

Users are frustrated, application adoption plunges and user productivity stalls.

Acceleration

With Riverbed® optimization, you can accelerate delivery of apps to users near and far.

Users are pleased, application adoption swells and user productivity surges. That's business in the fast lane!

Clear Up the Congestion

With Riverbed® optimization, there's nothing to rip and replace.

No software modifications to hold you back.

And deployment is a breeze with Riverbed®.

Deliver Microsoft® Office 365™ **up to 33x faster** while using **97% less bandwidth.***

*Performance Brief, "SteelHead Cloud Accelerator" 2015
